PRESS RELEASE

IGENITY® profile to be offered through Dr. Van Haeringen Laboratorium

5th November 2009

Merial and Dr. Van Haeringen Laboratorium sign agreement to offer the comprehensive IGENITY profile for beef and dairy cattle.

From October 2009, in addition to offering their existing range of tests and state-of-the-art technology, Dr. Van Haeringen Laboratorium (VHL) will also offer the comprehensive IGENITY® profile, following an agreement between Merial and VHL.

Dr. Van Haeringen Laboratorium is a well known, certified and accredited laboratory, specialising in DNA-technologies, Wim Van Haeringen of VHL says “At VHL our mission is to utilise the most up-to-date technology to provide accurate, reproducible and valuable information to our customers in the livestock market.”

“The range of traits analysed by IGENITY means it is a very useful DNA profile tool for both the beef and dairy cattle markets, which makes IGENITY a perfect fit with the VHL mission.”

“Dr. Van Haeringen Laboratorium has a customer base which includes cattle studbooks, AI stations and a huge network of farmers. We are dedicated to pursuing technologies and solutions to help serve our customers and so we are very excited at the prospect of being able to provide the IGENITY profile” Wim adds.

The IGENITY profile for dairy, analyses traits such as milk yield, fat and protein, dairy form, productive life, somatic cell score and fertility. The IGENITY profile for beef analyses 9 economically important traits such as tenderness, marbling, retail meat yield, back fat thickness, ribeye area, heifer pregnancy rate, longevity, maternal calving ease and docility. IGENITY also offers analysis for feed efficiency, myostatin, genetic recessives and polling. Plus samples can be taken from calves at any age.

“It is clear that the wealth and timeliness of information that can be provided through IGENITY is immensely valuable to our cattle industry customers says Wim. It will help allow the efficient and timely management of an animals potential to perform and to transmit traits of economic importance and as such is the first step to a progressive and profitable future.”

“For over 20 years Dr. Van Haeringen Laboratorium has been providing it’s customers with quality, service and know-how and on this basis we are proud to add the IGENITY profile to our already extensive offering” concludes Wim.

-Ends-
